- Front end
- Back end
- MongoDB

WORK EXPERIENCE

Omega Health Care 2023-2024

Medical Billing
Posting Adjustment

PROFILE SUMMARY

Full Stack Developer fresher skilled in HTML, CSS, JavaScript, ReactJS, Node.js, and MongoDB. Proficient in creating responsive interfaces and interactive web apps. Demonstrated project experience with strong problem-solving skills. Eager to grow and contribute to a dynamic team.

PROJECT

PROJECT-1

Greenden Website

(HTML, Tailwind CSS, JavaScript)

- Built a responsive Greenden clone using HTML, CSS, TailwindCSS, and JavaScript.
- Focused on a mobile-first design and implemented efficient styling with TailwindCSS.
- Enhanced UI/UX for a smooth, interactive user experience.
- Demonstrated strong front-end skills, with positive feedback from the community.

PROJECT-2

Weather App

(HTML, Tailwind CSS, React.js)

- Developed a dynamic Weather Application using React.js and TailwindCSS to provide real-time weather updates for cities worldwide.
- Integrated OpenWeatherMap API to fetch accurate weather data, including temperature, humidity, wind speed, and weather conditions.
- Designed a mobile-responsive interface with glassmorphism effects for an engaging user experience across devices.
- Implemented a search functionality allowing users to retrieve weather details for specific cities instantly.
- Created a real-time clock feature using date-fns to display live time and date.
- Built an hourly forecast section, filtering specific times (6 AM, 9 AM, 12 PM, etc.) for concise weather information.
- Enhanced UX by adding dynamic weather backgrounds, reflecting current weather conditions such as sunny, rainy, or cloudy.
